JUST A SPRING AGO

Just a spring ago the country club and golf course were surrounded with high cane. The landscape was ragged. Now the verdant lawn stretches in long, unbroken expanses, colorful blooms trim the margins, and an attractive landscape pattern enhances the premises.

Just a spring ago or less, the local water department's grounds boasted of little or no planting and a not too well kept yard. Now colorful gardens spot the front lawn and a citrus grove grows in the back corner. The department might even claim to have the most attractive, well kept grounds in the state.

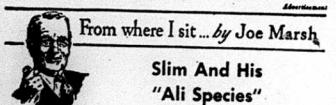

Just a spring ago the chamber of commerce building, which is the first thing seen by travelers coming from the east, was completely without planting. Now neat hedges and bright annuals where there was nothing. And less than a spring ago weeds grew in the city hall and the jail and around the new police station. The beautification has been transformed in the rapidly expanding city beautification program.

These magic touches of beauty have been lent to the city through the hard work and planning of Mrs. C. W. McDonald and her crew and numerous active Garden Club members. The true beautification is their goal but even this industrious group can't do it alone.

Every year about this time the call goes out for a community house cleaning; for every one to clean up yards and lots so that Belle Glade will be remembered as the cleanest little town full of flowers. Phenomenal progress in local beautification since last spring has been outlined and should serve to inspire individual action.

It's spring again and the season has become attached to many meaningful events for many people. To the homemaker it is the time for frantic web cleaning. And for the youngster it is the time when his fancy lightly turns. For all ages, it means more outdoor living and playing.

For the area farmer it means the corn is tall and that the black birds are hungry. And for the city it should mean an all out cooperative clean up so that each individual residence or vacant lot will blend with the attractiveness of the public spots.

Slim And His  
"Ali Species"

Slim Baker, who's always doing something crazy, had a lot of people smiling last week because his entry won a ribbon in the Women's Club, Anti Pet Show.

Some, though, Slim saw a strange-colored alley cat with no tail over at Central City and brought it home. He washed, combed, and brushed it and put a collar on it with a card reading "Ali Species." Then he entered it in the show.

Hanged if the ladies didn't think it was some rare kind of cat and gave it a special award! When

## RAINBOW

The Auxiliary voted that a recommendation be drawn up from this post favoring compulsory Universal Military Training.

Poppy Day, not observed last Saturday as originally scheduled because the poppies did not arrive in time, was rescheduled for April 7th.

Refreshments were served by Mrs. Cone and co-hostess Nonie Parrish.

## Science

Old Uncle Sam stepped right into the classroom this week, and invited the Science teacher, Mr. T. L. Hayes, for a visit with the United States Army. Mr. Hayes gladly showed necessary accepted the offer, leaving the classes in the hands of Mrs. Freeman who will take over the science department. All the students and faculty hated to see Mr. Hayes leave. This was his first year at Belle Glade High, and he had gained many good friendships. We extend to him our deepest sympathies, but all the success is his.

## "B" Club

A meeting of the "B" Club boys was held at the school Monday night. All old club business was discussed and all necessary plans were made for the next few months. Financial statements were discussed and the meeting was adjourned.

This week, school was dis-

missed on Wednesday afternoon for the annual Easter Vacation. Seems all students were extremely happy that Easter was over and that makes a good vacation and then makes a good Easter.

Two more Easter eggs each day will really be enjoyed.

Each person from Belle Glade High is spending the few days in a fun-packed way. Also, all the faculty are spending the holidays with friends or relatives.

## New Bethel Baptist Church

Rev. W. Porter, Pastor  
Lesson subject Sunday was "Through Death to Life." The summary of the lesson was given by the pastor and remarks by Rev. W. Coney.

Morning devotion was conducted by Sis. Virginia Holland and Sis. Mary Hart. Inspirational song service furnished by the Senior Choir. A short spiritual sermon was delivered by Rev. Coney of West Palm Beach. His theme was "A Spiritual Life."

The Knights of Pythias held their Anniversary at 2 p. m. with a short program and dinner on the grounds.

Rev. Coney delivered a profound evening sermon. Following this an Easter program was sponsored by the S. S. of which Mrs. S. A. O'Neal was mistress of ceremonies.

The pastor and delegates have returned from the Progressive State Convention which convened in Clearwater. Delegates were Paul Porter, H. M. President, Mrs. R. House, Y. W. A. Directress, Georgia Douglas; Y. W. A. President, Annie M. Everett; District Jr. treasurer, Laurette Hooks and others. It was reported that the convention was very inspiring and successful.

You are always welcome to attend our church services.

Fourth Grade Classes thought it would be fitting and proper to present to the student body all of the ministers of this area in assembly, Friday morning, April 6th at 8:30 A. M.

All of our patrons and friends are cordially invited to be with us.

Through this effort, we will know our ministers, who from day to day are working to guide our destiny in right and helpful living.

### May Day Activities are Planned

The committee on May Day Festival is hard at work for the May Day Activities which will be held on the playground of Lake Shore Elementary School, May 1. Watch the paper for the time.

### CONSERVATION AND WISE USE OF FARM MACHINES AIDS DEFENSE PROGRAM

Keeping the farms of Florida and the rest of the country in good shape mechanically is about the best insurance for food and fiber production. This is also important in the defense program.

Numbers of horses and mules on farms have dropped to the point where it is either mechanical power or no power on most farms. It's a case of keeping the machinery or eliminating farm production.

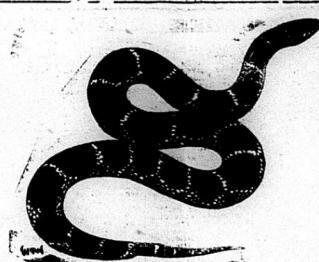

United States farm production in 1941 farm production in the United States has increased 20 percent, while the labor force has diminished by about one million workers. Mechanization is the answer.

The Department of Agriculture, as well as those concerned with defense efforts and farmers themselves, realize it is highly essential to keep farm equipment rolling now. And so the Department of Agriculture is working together with the help of industry, to keep their farms in good shape mechanically by conserving farm machinery and equipment and repair parts and by using the machinery they have wisely to avoid unnecessary waste.

The Secretary of Agriculture, Charles F. Brannan says "It is important that we consider how we can maintain an adequate supply of farm machinery and equipment and use it now, so that we can get the 1951 crop year in early and heavy. We must look to the future, when food needs may be even higher."

The Department urges farmers to survey their individual needs now and place their orders for parts as far in advance as possible, as quickly as possible. In industry, it is hoped, will increase the output of repair parts and other items needed by farmers in the efficient maintenance of farm machinery. Manufacturers, of course, will be in better position to satisfy these requirements if farmers will get their orders in early.

"An essential aid in keeping our farms in good condition now and in the future is for us to take all steps possible toward keeping their machinery and equipment in a constant state of repair and to use it under conditions that will cause the least wear," says the Secretary of Agriculture. "In the interest both of maintaining an adequate supply of farm mechan-

THE KING SNAKE

There are many kinds of king snakes. The common or "chain" king snake, shown here, is well known. It is famous for killing other snakes, even poisoners, being immune to the venom. It also feeds on rats and mice, which it kills by constriction. It is harmless to man, and in captivity makes an attractive and docile pet.

cal equipment and of obtaining the food we shall need in the national defense effort, I fully recommend such measures."

**GEHRKEN EXPLAINS NEW SOCIAL SECURITY RULES**

"Sit back and relax," says Mr. Gehrken, manager of the West Palm Beach Social Security office for self-employed people, regarding Social Security.

"We've had literally hundreds of questions recently from self-employed people about themselves," Mr. Gehrken said. "They all wonder what they have to do right now about Social Security, and how the new law affects them. Many self-employed people are now under Social Security."

The Federal official explains, however, that people who work for themselves will make their first Social Security tax reports at the end of this year. The report will be made at the time the self-employed person's tax return is sent in. The tax on self-employed income will be 2 1/4%, according to Mr. Gehrken.

"Not all self-employed people are under the law," Mr. Gehrken said. "Many self-employed people and a number of other occupational groups were left out when the law was changed."

Mr. Gehrken invited anyone wanting more information to visit, phone or write to his office, 501 North Olive Avenue, West Palm Beach, Fla. A special leaflet about self-employed and Social Security is available without charge.

### FLA. GROWERS VICTIMS RAIL WORKERS STRIKE

Florida growers of fruits and vegetables are finding themselves innocent victims of the recent railroad switchmen's strike, according to LaMont Givens, general manager of the Florida Fruit and Vegetable Association.

Tying up of car movements has resulted in a serious shortage of refrigerated cars causing great difficulties in moving to and from the remaining part of this state's vegetables, now reaching peak volume.

"In part," Givens said, "the

at a Twist of the Wrist . . .

You really have something to worry about—your valuable car is certainly not safe if it is not adequately protected against fire.

A safe can protect you—but not just any old safe. Many old-timers, no matter how safe they feel, still look like ovens when fire strikes.

A modern Hurling-Hall-Martin safe, heavily insulated, and having passed the fire impact and explosion tests of the Underwriters Laboratories, provides the protection you need.

There's a style and a size to suit every requirement, and the cost is less than you think!

SO. BAY COUNTY ROADS  
REPAIRED AND GRADED

County roads within the limits of South Bay were repaired and graded last week under orders of County Commissioner Pauline.

East Canal Street received a rock fill at places where it had fallen below grade and was then graded, making a much needed improvement of this street approximately south of the main highway.

It is understood that Mr. Rardin is working to secure right of way on Southwest Canal Street sometimes designated as Okelokana Road. When this necessary work is completed he plans to have this road raised to grade and paved. This will add half a mile of paving to the paved residential streets within the town, and serve as a short cut from SR No. 80 south to U. S. Highway No. 27 and from local traffic to the longer road through the main business area of town.
